

Delcath Systems Reports First Quarter 2022 Results and Provides Business Update

May 10, 2022

NEW YORK, May 10, 2022 (GLOBE NEWSWIRE) -- Delcath Systems, Inc. (Nasdaq: DCTH), an interventional oncology company focused on the treatment of primary and metastatic cancers of the liver, today reported business highlights and financial results for the first quarter ended March 31, 2022.

Recent Business Highlights

During and since the first quarter, Delcath:

- Held a pre-NDA meeting with FDA and announced plans to file an NDA in the third guarter of 2022,
- Announced the acceptance of a poster presentation updating results from the FOCUS Phase 3 Trial at the upcoming American Society of Clinical Oncology (ASCO) 2022 Annual Meeting,
- Resumed direct responsibility for sales, marketing, and distribution activities for the CHEMOSAT® Hepatic Delivery System in all of Europe,
- Achieved medical device regulation (MDR) certification for CHEMOSAT in Europe, which is now regulated as a Class III
 device.
- Announced that investigators from the University Hospital Southampton published in Melanoma Research results of a single center study on Delcath's CHEMOSAT Hepatic Delivery System in 81 metastatic uveal melanoma patients with liver dominant disease receiving 250 treatments showing hepatic disease control rate of 88.9%, hepatic response rate of 66.7% and overall response rate of 60.5%, and
- Appointed David Hoffman as General Counsel and Chief Compliance Officer and Anthony Dias as Vice President of Finance.

"During and since the first quarter, we held a pre-NDA meeting with FDA and, while we wait for the final meeting minutes from FDA, we do not believe any additional pre-clinical or clinical studies will be required in order to file the NDA. We expect to file the NDA in the third quarter of 2022," said Gerard Michel, CEO of Delcath. "Additionally, the body of published research on the efficacy of our CHEMOSAT system in the European commercial setting continued to grow, we resumed direct sales of CHEMOSAT in Europe, and we strengthened our leadership team. These accomplishments move us much closer to achieving our strategic priorities — filing of the HEPZATO NDA, preparing for the subsequent US launch when approved, and expanding the clinical development of HEPZATO and CHEMOSAT into additional indications of high unmet medical need."

First Quarter 2022 Results

Income Statement Highlights.

Total revenue for the three months ended March 31, 2022 and 2021, was approximately \$0.3 million, from primarily sales of CHEMOSAT in Europe. Research and development expenses for the quarter were \$4.2 million compared to \$3.7 million in the prior year quarter. Selling, general and administrative expenses for the quarter were approximately \$3.6 million compared to \$3.3 million in the prior year quarter. Total operating expenses for the quarter were \$7.9 million compared with \$7.0 million in the prior year quarter.

The Company recorded a net loss for the three months ended March 31, 2022, of \$8.2 million, compared to a net loss of \$6.7 million for the same period in 2021.

Balance Sheet Highlights

On March 31, 2022, the Company had cash, cash equivalents and restricted cash totaling \$20.5 million, as compared to cash, cash equivalents and restricted cash totaling \$27.0 million on December 31, 2021. During the three months ended March 31, 2022, and March 31, 2021, we used \$6.4 million and \$4.6 million, respectively, of cash in our operating activities.

About Delcath Systems, Inc.

Delcath Systems, Inc. is an interventional oncology company focused on the treatment of primary and metastatic liver cancers. The company's proprietary percutaneous hepatic perfusion (PHP) system is designed to administer high-dose chemotherapy to the liver while controlling systemic exposure and associated side effects. In the United States, the PHP system is being developed under the tradename HEPZATO KIT (melphalan hydrochloride for injection/hepatic delivery system), or HEPZATO, for the treatment of patients with unresectable hepatic-dominant metastatic ocular melanoma (mOM), also known as metastatic uveal melanoma (mUM) and is considered a combination drug and device product regulated by the United States Food and Drug Administration (FDA).

In Europe, the PHP system is now regulated as a Class III medical device and is approved for sale under the trade name CHEMOSAT Hepatic Delivery System for Melphalan, or CHEMOSAT, where it has been used at major medical centers to treat a wide range of cancers of the liver.

Safe Harbor / Forward-Looking Statements

The Private Securities Litigation Reform Act of 1995 provides a safe harbor for forward-looking statements made by the Company or on its behalf. This news release contains forward-looking statements, which are subject to certain risks and uncertainties that can cause actual results to differ materially from those described. Factors that may cause such differences include, but are not limited to, uncertainties relating to: the timing and results of the Company's clinical trials, including without limitation the mOM and ICC clinical trial programs, as well as the receipt of additional data and the performance of additional analyses with respect to the mOM clinical trial, our determination whether to continue the ICC clinical trial program or to focus on other alternative indications, and timely monitoring and treatment of patients in the global Phase 3 mOM clinical trial and the impact of the COVID-19 pandemic on the completion of our clinical trials; the impact of the presentations at major medical conferences and future clinical results consistent with the data presented; approval of Individual Funding Requests for reimbursement of the CHEMOSAT procedure; the impact, if any, of ZE reimbursement on potential CHEMOSAT product use and sales in Germany; clinical adoption, use and resulting sales, if any, for the CHEMOSAT system to deliver and filter melphalan in Europe including the key markets of Germany and the UK; the Company's ability to successfully commercialize the HEPZATO KIT/CHEMOSAT system and the potential of the HEPZATO KIT/CHEMOSAT system as a treatment for patients with primary and metastatic disease in the liver; our ability to obtain reimbursement for the CHEMOSAT system in various markets; approval of the current or future HEPZATO KIT/CHEMOSAT system for delivery and filtration of melphalan or other chemotherapeutic agents for various indications in the U.S. and/or in foreign markets; actions by the FDA or foreign regulatory agencies; the Company's ability to successfully enter into strategic partnership and distribution arrangements in foreign markets and the timing and revenue, if any, of the same; uncertainties relating to the timing and results of research and development projects; and uncertainties regarding the Company's ability to obtain financial and other resources for any research, development, clinical trials and commercialization activities. These factors, and others, are discussed from time to time in our filings with the Securities and Exchange Commission. You should not place undue reliance on these forward-looking statements, which speak only as of the date they are made. We undertake no obligation to publicly update or revise these forward-looking statements to reflect events or circumstances after the date they are made.
